Re: D-1013; PM 1697
Tubular Integral Heater with Discrete Heating Zones

Dear Charlie:

Further to our telecon on April 5, 1993, we enclose the above-identified Beta disclosure for consideration of inclusion within PM 1697.

The disclosure set forth information achieved from current efforts with computer modelling of flow regimes within a Beta article.

David Radulescu, who has been assigned the task of preparing PM 1697, has already received drawings from Willie Houck regarding similar concepts, such as the "kiss" seal.

Please assign D-1013 to David Radulescu, with the understanding that he should incorporate only those portions, if any, that he deems purposeful in completing the PM 1697 application.

Thank you for your attention to this matter.

Very truly yours,

Charles E. B. Glenn
